

BOX CLEVER

TAILOR MADE SERVICE KITS

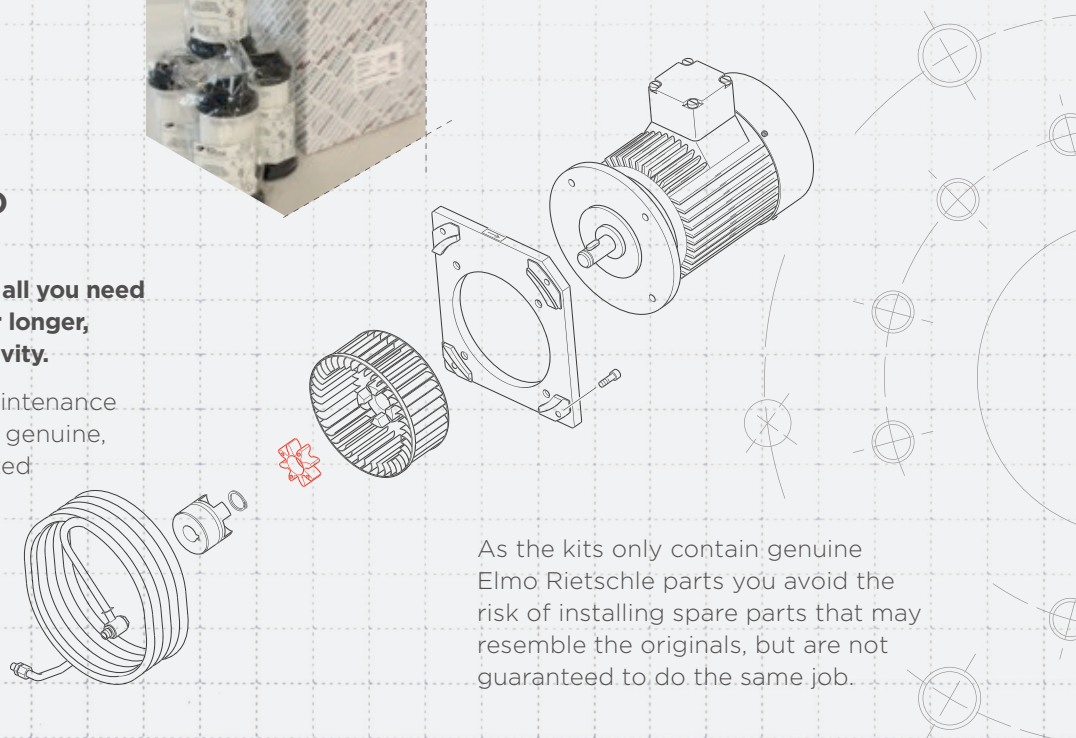

Providing you with everything you need to keep your Elmo Rietschle technology genuine, more efficient and productive for longer.

ELMO RIETSCHLE SERVICE KITS

ALL THE **PARTS YOU NEED**
IN A SINGLE BOX

Elmo Rietschle Service kits provide all you need to keep your equipment running for longer, maintaining efficiency and productivity.

Service kits are a cost effective maintenance solution that keep your equipment genuine, using the same parts they were fitted with when they left our factory.

As the kits only contain genuine Elmo Rietschle parts you avoid the risk of installing spare parts that may resemble the originals, but are not guaranteed to do the same job.

AVOID THE HIDDEN COSTS OF NON-GENUINE SPARE PARTS

Those who decided not to use Genuine Spare Parts often fail to see the long-term cost that this can incur. Initially it may seem cheaper to buy lower quality non-genuine parts, however, this fails to realise the hidden costs of this short sighted decision as parts on average only account for 6% of the Total Cost of Ownership with energy consumption being the biggest cost contributor.

POSITIVES OF USING NON-GENUINE SPARE PARTS

-  **PARTS ARE OFTEN CHEAPER** than factory genuine parts. But don't fall into the easy trap of ruining a good purchase with a bad one

NEGATIVES OF USING NON-GENUINE SPARE PARTS

-  **EFFICIENCY DECREASES** in equipment causing increased energy consumption
-  **EQUIPMENT ACCURACY IS DECREASED** causing greater process variation
-  **SERVICE INTERVALS BECOME MORE FREQUENT**
-  **HIGHER RISK** of unexpected breakdown and lost production time
-  **FACTORY WARRANTIES ARE VOID** once non-genuine parts are used.
